About Me

I'm a passionate front-end developer with a strong background in React.js and a love for building user-friendly web applications. I thrive on solving complex challenges and continuously improving my skills by staying up-to-date with modern frameworks and best practices.

Professional Experience

Front-End Developer Intern – Schoolboost GmbH

July 2024 - Present

- Designed and implemented key functionalities used by active users in production, enhancing the overall user experience.
- Engineered reusable, scalable components using TypeScript, React, and Tailwind CSS, adhering to design and functionality requirements.
- Collaborated with the development team in an Agile environment, contributing to daily standups, sprint planning, and feature prioritization to ensure on-time delivery.

Technical Projects

Astral Eats

<https://astraleats.vercel.app/>

<https://github.com/PabloAzadian/astraleats>

- Developed Astral Eats, a React-based food ordering platform integrated with a mock backend, featuring responsive design, user-friendly navigation, and seamless content rendering. Utilized Midjourney AI for image generation and improved page load times by 35%

KenoTech

<https://keno-tech.vercel.app/>

<https://github.com/PabloAzadian/KenoTech>

- Developed an e-commerce platform for a hardware store using React.js, featuring an intuitive product search and filtering system, a secure checkout process, and user account management. Optimized state management and integrated APIs to ensure a fast, seamless user experience.
